

## Design

These are fully adjustable litter bridles intended for use with any style litter. All hardware meets NFPA and military specifications. The “O” Ring used for the top tie-in point is rated 134 kN (30,000 lbs.). Parachute buckles used on each of the four legs allow them to be adjusted independently, which means the stretcher can quickly and easily be set at the best angle for patient comfort. The use of Mil-Spec hardware throughout reduces wear on the web. Rated strength for both bridles is 22kN (5,000 lbs.).

## Features

- **Independent Adjustability**
- **Available in two Models**

Part No.	Description	Width	Length	Weight	Load Rating
15-0108	Hard Eye Litter Bridle	N/A	N/A	1.5 kg/3.4 lbs.	22 kN (5000 Lbs.)
15-0109	Soft Eye Litter Bridle	N/A	N/A	1.3 kg/2.8 lbs.	22 kN (5000 Lbs.)
